

DESCRIPTION

Stealth Hinged Access Panels are glass fiber reinforced gypsum (GFRG) panels designed to blend seamlessly into drywall. Designed for both wall and ceiling applications, the hinged Stealth Panel can be used where a locked door is needed but style must still be maintained. The hinged panel is great for use in ceiling applications where there is no space to push a door up, and in wall applications when access to plumbing and electrical is needed.

FEATURES

- For Walls and Ceilings
- For Drywall
- Tapered edge for tape joint
- Easily textured
- Lightweight
- Blends seamlessly into surrounding drywall
- No shrinking, cracking or rusting
