

**SLA Series****Slammer Access Doors**

**Doors** are designed to provide security access with the strength and durability to withstand abusive and vandal-prone conditions prevalent in many institutions. Without sacrificing security, these doors allow maintenance personnel access to plumbing chases, shut-off valves and electrical apparatus located behind finished walls.

**Door** is fabricated from 10 gage steel.

**Frame** is 3/16" x 2" x 2" angle steel, welded and with pre-punched mounting holes.

**Latch** is a detention type deadbolt lock with paracentric key, when requested.

**Hinges** are heavy duty and are welded to the door and frame.

**Door** can be provided with a high security, vandal resistant, detention type lock. Doors are manufactured with locks provided by others.

**Finish** is a white prime coat suitable for painting.
